November 9, 2020

Wickliffe Families,

Unfortunately, there has been a significant increase in exposures and confirmed COVID-19 cases among our students and employees. While these are still coming from off-campus exposures, we want to keep the students, staff, and community safe, and maximize learning opportunities for students.

- On Tuesday, November 10, 2020, students will not report to the building for instruction. Students/families may come to the building between the hours of 8:00 and 11:00 a.m. to pick up supplies, materials and other items needed for remote instruction.
- At this time, due to the large number of quarantined students and staff, our ability to appropriately staff classrooms is no longer possible. In order to address our current challenges, I am moving the District back to remote instruction effective Wednesday, November 11, 2020.
- The principal of each building will set the daily schedule and will notify students and staff.
- The remote instruction period will last at least until November 30, 2020.
- There will be opportunities for small groups of students to work directly with teachers in-person. Details of such meetings will come directly from the school.
- During the remote learning period, teachers will be working from a location of their choosing and school offices will remain open.
- School offices, the Family Resource Center, and the Board of Education Office will remain open during the remote period.
- Effective the end of the day Wednesday, November 11, winter sports are paused until further notice.
- During the remote period, meals will continue to be available for pick-up from the Wickliffe High School cafeteria and meals for pick-up will also be available at the Family Resource Center.

In order to get the spread of COVID-19 under control, I urge you to follow the protocols established by public health officials:

- Wash your hands frequently.
- Wear a face covering in public.
- Social distance.
- Sanitize your hands when hand washing is not possible.
- Stay home when not feeling well.
- Disinfect high touch areas frequently.
- Avoid large gatherings of people.

Thank you for your cooperation and assistance during this time.

Sincerely,

Joseph Spiccia
Superintendent
